Republican Colors:
THE STARS AND STRIPES.

For President:
WILLIAM MCKINLEY.

For Vice-President:
THEODORE ROOSEVELT

For Governor of New Mexico:
MIGUEL A. OTERO.

For member of the House, 34th Legislative Assembly, from the counties of Otero and Dona Ana,
MAJOR W. H. H. LLEWELLYN,
Of Las Cruces, Dona Ana County.

For member of the Council, 34th Legislative Assembly,
W. S. BAKER,
Of Tularosa, Otero County.

POLITICAL ANNOUNCEMENTS.

SHERIFF.—I hereby announce myself a candidate for the office of sheriff of Otero county, subject to the approval of the county convention.
W. R. BAKER, Alamogordo.

COUNTY CLERK.—I hereby announce myself a candidate for the office of county clerk of Otero county, subject to the approval of the county convention.
JASPER SCOTT, Weed.

ASSESSOR.—I hereby announce myself a candidate for the office of Assessor of Otero County, subject to the approval of the Republican County Convention.
CARLOS CANDELA, Rio Arriba.

We favor home rule for and early admission to statehood of the territories of New Mexico, Arizona and Oklahoma.—National Republican Platform.

A commercial achievement is far better than a Bryan theory in the bush.

Mr. BYRAN's experience in farming bids fair to rival his career as a soldier.

The chronic critics of Gov. Roosevelt are unable to understand the perversity of the masses.

Some recent events have tended to take the barbed wire edges off of the word "militarism."

It will be an unfortunate thing for this republic if the job of saving it ever devolves upon the Democratic party.

Peru and Costa Rica have adopted the gold standard. The Coin Harveys to the south of us are experiencing hard luck.

The Texas Populists complain that the Democrats steal their campaign thunder. The Kansas City platform is conclusive evidence on this point.

In contemplating the evidence adduced in the Kentucky murder cases the fact that \$100,000 was appropriated to secure it should not be overlooked.

Tux battleship Oregon will come home with a patch on her hull. This was the normal condition of the American shipowner's trousers during the late Democratic administration.

The Texas Democrats are engaged in a lively internal rumpus. The "Boxer"

element is bent upon making trouble, and intervention by Chairman Jones forces may be necessary.

People who talk of this country backing out of free silver if it proves dangerous, demonstrate their ignorance of the question. It would be a case of damage once done, could not be undone.

An intelligent and careful newspaper writer declares that there are more windmills in Nebraska than in any other state in the union. So the Populist orators don't have things all their own way in Nebraska.

EVERY Democratic editor is hard at work trying to convince his readers that the 16 to 1 plank of the Kansas City platform doesn't mean anything. But he doesn't attempt to account for Mr. Bryan's persistence in forcing its adoption.

The American cow has felt the effect of Republican good times. Her value has gone up about \$10 since 1895, from \$21.95 a head to about \$31.60 a head. She has also had to supply more milk, because of the demand attendant on the filling of the workingman's dinner pail.

Call for a Republican Territorial Convention.

A delegate convention of the Republican voters of the Territory of New Mexico is hereby called to meet in the city of Santa Fe at ten o'clock in the morning on Wednesday, the third of October, 1900, for the purpose of placing in nomination a candidate from New Mexico to the 57th Congress, and to transact such other business as may properly come before the said convention.

The Republican electors of this territory and all those who believe in the principles of the Republican party and in its policies as announced in the National Republican platform adopted by the Republican National Convention held in the City of Philadelphia, June 19, 1900, who believe in and endorse statehood, for the Territory of New Mexico and favor an honest, fair and just administration of public affairs, in this territory, are respectfully and cordially asked to unite under this call to take part in the selection of delegates to the Territorial Convention.

Alternates will not be recognized.
Proxies will only be recognized if held by citizens of the same county from which delegates giving proxies were elected.

County conventions must be held on or before Saturday, September 29, 1900.
County committees will take proper action and call county conventions at such times and places as they may deem best before or on that date.

The chairmen and secretaries of the county conventions are earnestly requested to forward true notice of the proceedings of such names of the delegates elected to the Republican county convention to the secretary of this committee by the next mail after the call of such conventions.

Where there are no regularly organized county committees the members of this committee are authorized and directed to perform the duties of the county committee and act accordingly.

JOHN S. CLARK,
Chairman of the Republican Territorial Central Committee.
MAX FROST, Secretary.

STATE OF OHIO, CITY OF TOLEDO, Lucas County.
Frank J. Cheney makes oath that he is the senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, county and state aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of HALL'S CATARRH CURE.

FRANK J. CHENEY,
Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1886.
A. W. CLARKSON,

Notice to Stockholders.

Notice is hereby given that a meeting of the shareholders of the First National Bank of Alamogordo, New Mexico, will be held at the banking room of said bank in the town of Alamogordo, county of Otero, Territory of New Mexico, on Wednesday, the twelfth day of September next (Sept. 12, 1900) at 4 o'clock p. m., to vote upon a proposed increase of the capital stock from twenty-five thousand dollars (\$25,000) to a sum not to exceed thirty-six thousand eight hundred dollars (\$36,800).

H. J. ANDERSON, President.
Alamogordo, Aug. 1, 1900.

"My baby was terribly sick with the diarrhoea," says J. H. Doak, of Williams, Oregon. "We were unable to cure him with the doctor's assistance, and as a last resort we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy. I am happy to say it gave immediate relief and a complete cure." For sale by Warren & Co.

FACTS IN A FEW LINES.

New Zealand's education is entirely secular and free.

Of the 3,700 Chinese in New Zealand only 20 are females.
French-Canadians almost entirely use home grown tobacco.

In 1800 there were 200 horses in Australia. In 1900 there are 2,000,000.

On a nursery at Brisbane Water there are nearly 100,000 exotic trees.
Scandinavians are numerous in New Zealand and Germans in South Australia.

The British and Foreign Bible society recently celebrated its ninety-sixth birthday.

There are 344 cities and towns in New York state which have a public water supply.

Regina, the headquarters of Canada's northwestern provinces mounted police, is a typical prairie city.

The Americans in the Klondike have exactly the same rights and privileges and pay the same taxes as Canadians.

The report of the Ontario department of immigration for 1899 shows that 4,015 steerage passengers settled in Ontario.

The income tax in India is levied on all incomes of £33 and upward, and then only one man in 700 comes within its scope.

The number of persons in Berlin whose income exceeds \$225 a year and who must therefore pay an income tax is 530,000.

Walter girls in Munich restaurants seldom receive any pay from their employers. Their fees amount to from 50 cents to \$5 a day.

About 350 women servants are engaged by Emperor William to look after the 22 royal palaces and castles that belong to the crown.

Western is the only Australian colony that pays neither the members of the legislative council nor those of the legislative assembly.

"Gnat fever" is the new scientific name for malaria, since it has been shown that it is through mosquitoes that the disease is conveyed to human beings.

One of the companies of Canadians which took part in the final attack on Cronje was wholly composed of French-Canadians who were unable to speak English.

The total capacity of the boiling down, chilling, freezing and meat preserving works in New South Wales is estimated at 16,000,000 head of sheep and cattle.

The principal rivers and streams of Tasmania have been stocked with the fry of English salmon, brown trout, salmon trout and Loch Leven trout bred in the colony.

The Ferris wheel was composed of 2,200 tons of iron and steel and contained thousands of separate pieces. While on the Midway it carried 1,750,000 people and made about \$25,000 gross receipts.

The Berlin Tageblatt remarks that while many laboring men were without work in Germany last year this was not owing to an absence of demand, but to the insufficient supply of raw material and coal.

Saturday sessions of congress are almost always such dull affairs that many members have suggested it would be about as well if both houses were to adjourn over each week from Friday to Monday.

Engineers say a 100 foot wide canal 12 to 15 feet deep between Lake Superior and Grand Forks, N. D., is an engineering possibility. The scheme is a grand one, and the agricultural north-west wants it carried through.

In the five years from 1894 to 1898 India produced nearly 5,000,000 tons of salt, or about 1,000,000 tons every year. This is obtained by evaporating the brines of lakes and wells and the sea as well as from rock salt mines.

An electric railway to be 400 miles long and to cost \$14,000,000 is to be constructed, with the approval of the government to the extent of \$5,000,000, connecting the states of Tabasco, Yucatan, Chiapas and Campeche, Mexico.

For preserving timber from decay an Australian has patented a new treatment consisting of immersing the timber in a solution of arsenous acid and an alkali until thoroughly impregnated, after which a coating of sulphate of copper is applied.

The Americans introduced the first sewing machines into China after great difficulties and taught the Chinese their use, and today in the flourishing cities of Shanghai, Hongkong and even in Peking the tailoring establishments are benefited by them.

German army authorities are now experimenting on a cotton stuff as a material for balloons. It is treated with rubber before being used. The fabric is said to have great strength and is better than silk, which is apt to generate electricity.

An odd cycling freak is to trim a piece of brown paper to fit the lens of the lamp and in it to cut eyes, nose and mouth. The effect is certainly startling. It resembles at a short distance the death's head that rustic youths carve from turnips and light up with a candle fixed inside.

The enlarged portrait of a swindler, who has found so large and fruitful a field in this country, has reached Paris. The congeries of apartment houses in the Vendome quarter have been worked to the extent of 2 francs each for frames to enlarged photographs, which are never delivered.

It is perhaps not generally known that in the United States, on the banks of Yogo creek, Montana, an extensive mine is in operation producing as fine sapphires and rubies as are found in the world. Sapphires and rubies are both varieties of the mineral corundum. Burma and Siam were formerly the only localities for these gems.

How to Curtain Windows.

Ordinarily two sets of curtains go to a window—a thin pair of muslin or lace next the glass and a thick pair of silk, wool, cotton or linen next the room, says Harper's Bazar. The quality of these materials varies. Often they are costly, often cheap. When in doubt about the thin curtains, it is always safe to buy white dotted muslin. Either loop them back with a white cotton cord and tassels, which come for the purpose, costing only 10 cents a pair, or tie them back with ribbons—a more expensive and also more extravagant way, since the ribbons must always be fresh to be pretty. The cord or the ribbon is held in place by a hook screwed into the woodwork of the window frame. A ruff-cut the same material or of lace adds much to the effect of any thin curtain. These curtains are put on small, inexpensive brass rods that run through a part of the hem, the upper part of the hem being left wide enough to form a heading. A muslin curtain ought to fall with a certain fullness, being cut about one and a half the fullness of the window itself. Small and large windows are curtained alike.

Good For Cleaning Bottles.

"Did you know," said the old housekeeper, "that crushed eggshells are good for cleaning discolored or stained bottles? I used to think I must have a small amount of shot in the house for cleaning the inside of bottles. Of course chopped pieces of potato are good, but eggshells are first rate too."

Parasol Handles.

White and light woods are much in evidence for parasol sticks. These are in one piece from top to tip and without any ornament at the latter point. Very attractive among them is boxwood, which affords beautiful effects in club handles.

What most people want is something mild and good, when in need of a physic. Chamberlain's Stomach and Liver Tablets fill the bill to a dot. They are easy to take and pleasant in effect. For sale by Warren & Co.

Gentle For Sale.
I offer for sale 300 Nannie goats, with 50 to 75 kids. All fine, mohair Angora stock.
PERRY KEARNEY,
Clondroft, New Mexico.

New Tailor Shop.
McCarthy & Reiss have fitted up an excellent tailoring establishment next to the First National Bank, on Tenth street, and are prepared to do artistic work in their line. They have a fine assortment of samples for spring and summer suitings, and the prices are as low as the largest city tailoring houses.
